

# ABOUT US

When a business is family-run, relationships and reputation are paramount. The JRN GROUP (JRN FACILITIES & SECURITY SERVICES) Team provide the same level of expertise as the largest security firms, including outstanding staff and service, cutting-edge technology, and round-the-clock coverage.

What separates us from as a facilitator of security services is our team's dedication to understanding and catering to individual clients' security needs, our mission, and our responsiveness.

Strong relationships and good listening skills are an essential ingredient to tailoring a unique program for each client.

## The difference is in the details:

- Post orders are specifically developed and updated for every client
- Uniforms are tailored to meet individual needs
- Managers vetted for qualifications and experience ensure consistent delivery of service that meets and exceeds contracted specifications

# The Leadership Team provides:

- Our years of combined experience in law enforcement, security management, and training
- Staff guidance and supervision from the classroom to site assignments
- Routine performance reviews at each staff level to ensure superior service commensurate with established company policy and philosophy

Offering armed and unarmed security and training services, JRN SECURITIES specializes in Uniformed Security, Executive Protection, Event Security, Armed Security, Patrol Service and Maritime Security. New standards in security demand better-trained, proactive personnel that are in excellent physical condition as they are expected to do more than ever before.

.....

# OUR MISSION

Today, we seamlessly integrates its security services with cutting-edge security systems and information technology services through its sister company, Building Security Systems.
